

EFL-M

DESCRIPTION

The EFL-M floodlights offer premium quality, exceptional 165 lm/W efficiency and a 60-200 W power range. Designed for durability, they feature C5 corrosion resistance and a robust aluminum housing, ensuring reliable performance in harsh conditions. With a 100,000-hour lifespan and EPD certification, EFL-M floodlights provide a sustainable, low-maintenance lighting solution for large-scale outdoor and industrial applications.

APPLICATIONS

The EFL-M floodlights excel in providing powerful and reliable illumination in airports, seaports, parking lots, playgrounds, stadiums, tunnels and underground passages, large warehouses and industrial areas.

BENEFITS

- **Reliable producer:** Designed, developed and manufactured by ENIM, a trusted EU producer.
- **Certified Quality:** CE, CB, RoHS and EPD certifications ensure compliance with all EU quality standards for floodlights.
- **Exceptional Efficiency:** Delivers powerful performance with a 60-200 W power range and an impressive efficiency of up to 165 lm/W.
- **Adaptable Optics:** Choose from 30°, 60°, 90° or asymmetric optics for precise and efficient lighting.
- **Corrosion Resistance:** C5 corrosion resistance class, ensuring durability in harsh environments.
- **Impressive Stability Ratings:** The IP66 rating provides complete protection against dust and powerful water jets, while the IK09 rating guarantees impact resistance up to 10 joules.
- **Durable materials:** A low-profile, powder-coated cast aluminum housing, tempered glass optical cover with stainless steel holders.
- **Engineered for Longevity:** Designed to last 100,000 hours (L95 B10).
- **Easy Installation:** The product is completely ready for installation.
- **Sustainability:** EPD certification ensures low carbon emissions and eco-friendly materials.

TECHNICAL INFORMATION:

ELECTRICAL	V	Input voltage	198V- 264VAC, 176V – 280 VDC 90V-305VAC, 127V - 300 VDC

OPTICS	Optical cover	Tempered Glass
	Light source	Power LED
	Optics type	30, 60, 90 degrees, Asymmetric
	Maintenance	Optical module sealed for life No internal cleaning required

DRIVER	Input voltage	198V- 264VAC, 176V – 280 VDC 90V-305VAC, 127V - 300 VDC
	Intelligent temperature Guard (ITG)	The intelligent temperature guard protects the LED driver from thermal overheating by reducing the output power or switching off in case of operation above the thermal limits of the luminaire or ballast
	Overvoltage with a variable surge protection	N/L – 6kV, P/(N/L) – 10kV
	Interfaces	One4all (DALI, DALI2, DT6, DSI, switchDIM, corridorFunction), NFC connection, Ready2mains (configuration and dimming via the mains), U6Me2 programming protocol, Chronostep – automatic luminaire dimming, Power-on level

REMARKS		The light output of an LED module reduces over the course of its lifetime. The Constant Light Output (CLO) function compensates for this natural decline by constantly increasing the output current of the LED driver throughout its lifetime
	CLO	
	Power factor (Cosφ)	≥ 0.95
	Recommended mounting height	Up to 10 m
